SPECIFICATIONS	INSTALLATION
----------------	--------------

Corner Guards: Fabricated of #18 gauge stainless steel with a #4 satin finish on all exposed surfaces with a radius on the leading edge at the 90 degree bend. Bends are available other than 90 on request. Standard leg sizes are 3 1/2"(89mm) but are available upon request for other sizes. Max height is 96". The edges of the legs have a slight bevel for a tighter fill to wall surface and for safety.

Screw holes: Advise number of holes if required. Standard diameter hole is 1/4"

Overall Size: 3 1/2" x 3 1/2" (Advise height required)

Standard Heights: 42", 48" (Other heights available upon request)

Ordering Information: When ordering UM10 corner guards, be sure to specify the height and leg size as shown below.

Leg size required: 3 1/2"

Height required: 48"

Your Model Number: UM10-0348

Provide an area on wall surface at desired or specified location. Transfer mounting points if holes are required and secure with proper fasteners per application.
