Troubleshooting

My Unit Will Not Accept Coins: Check to see if chutes are empty. This unit has an automatic empty indicator which prevents coins from entering slot when chute is empty.

The Packages Get Hung Up In Chute: Check packages for size as recommended by manufacturer. Make sure packages have not been wet, bent, crushed or are out of shape in any other manner.

Check if weight is being used properly over packages to be dispensed in each chute. Check chutes and front door to see if it has been vandalized or tampered with. In many cases chutes are damaged when units are vandalized. If chutes cannot be straightened, they should be replaced.
