

U776
SURFACE MOUNTED SHELVING

Job #:

Item #:

Quantity:

Shelves: Type 304 #18 ga stainless steel. All edges are turned down 1/2" with front edges turned down & back 1/2" for maximum strength and rigidity. All corners are deburred and polished smooth for safety.

Brackets: Type 304 #16 ga stainless steel permanently welded to shelf with exposed mounting points. Brackets are spaced maximum 30" centerline.

Surface mounted shelf 6"D. (152mm)

Provide an area on wall surface at desired or specified location. Place unit up to wall making sure unit is level. Transfer mounting points to surface and drill pilot holes. Secure shelf to surface with proper fasteners per each application.
