SPECIFICATIONS

Corner Guards: UM10 corner guards are fabricated of type 304 #16 gauge stainless steel with a #4 satin finish on all exposed surfaces with a radius on the leading edge at the 90 degree bend. Bends are available other than 90 on request. Standard leg sizes are 3 1/2" (89mm) but are available upon request for other sizes. 2 1/2" is the minimum leg size. The edges of the legs have a slight bevel for a tighter fit to wall surface and for safety.

UM10: Corner Guards

Overall Size: 3 1/2" x 3 1/2" (Advise height required)

Suffix: so: Screw holes, advise number of holes required. Standard diameter hole is 1/4"
